Phone Case

MagicTap Phone Case is made with high quality PC plastic, PU/Leather with structural strength. Patchwork design with velcro fabric for attaching our NFC (Near Field Communication) patented Patch Patches/Card holder. You can create your way to design your case, create your own function for your case.

NFC

Name Card Holder
attach on the case

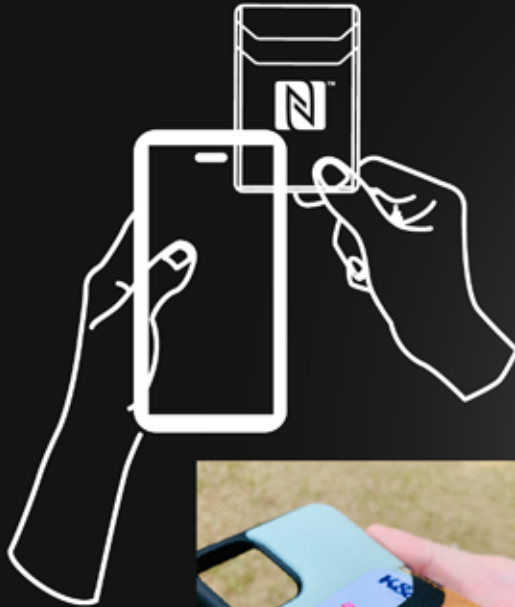

Solution

MagicTap Phone case with NFC accessories. According to the On-The-Go concept, we design a phone case that can easily attach NFC accessories eg. NFC patch, NFC patch ring, NFC card Holder / Folio. With the magic tape backing on the phone case, it provides an easy way to let the user carry the NFC gadgets. Users can take off and scan the NFC gadgets in a second. Combine with the MagicTap Phone case, let the user make sense to use NFC accessories in a convenient way, and we made the NFC into functional gifts eg. Cardholder, Mobile Ring, and décor patch.

In 2019, MagicTap case is awarded the Design Patent.
